HOW TO ASSEMBLE

HOW TO INSTALL

Method 1:

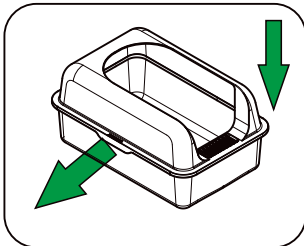

1. Place the enclosure over the metal pan and align the edge. Pull the two snaps on each side slightly to the outside.

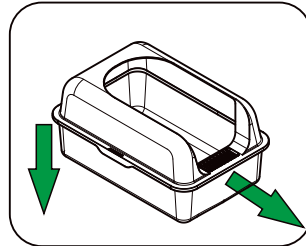

2. Press down on the snaps to complete the installation.

Method 2:

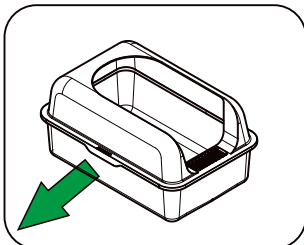

1. Place one side of the enclosure over the metal pan, pull the snap outward and press down.

2. Then pull the snap on the other side outward and press down.

A "click" indicates that the installation is complete.

HOW TO REMOVE

Pull the snap in the middle of the enclosure to both sides slightly, and then lift it up to take it out.
